Reception Mathematics Yearly Overview – (Based on White Rose Maths supported by NCETM Numberblocks)

Overview of mathematics progression over the year/terms subject to change based on children’s knowledge and skills

AUTUMN

<u>AUTUMN 1</u>	<u>NUMBER ELEMENT</u>	<u>SSM ELEMENT</u>	<u>NCETM- Mastery of Number</u>	
White Rose Focus	Numbers to 5 Comparing Groups (quantities of identical & non-identical objects) Change within 5 (One more & one less)	Sorting (into groups) Time (my day)		
Additional Foci		2D shape WR Spring (recognition and describing sides) Money (1p, 2p, 5p) Time (Identifying numbers on a clock)		Rationale – Each shape and coin is introduced with the corresponding number so children make links between numbers and their application in the real world. Children also identify where numbers are on an analogue clock to develop familiarity and as a precursor to telling the time in year 1.

SPRING

<u>SPRING 1</u>	<u>NUMBER ELEMENT</u>	<u>SSM ELEMENT</u>	<u>NCETM- Mastery of Number</u>	
White Rose Focus	Numbers bonds to 5 Numbers to 10 (counting & comparing groups) Addition to 10 (combining 2 groups, number bonds using 10-frame and part-whole model)	Spatial Awareness 3D shape 2D shape (started in Autumn)		
Additional Foci	Numerical Patterns WR Summer (Odds & Evens) (Doubling & Halving) Subitise numbers to 5, and use subitising skills to begin to identify larger numbers e.g. 5 and 2 is 7			When children are learning to subitise (recognise quantity without counting), it makes sense to talk about ways in which each number can be arranged and patterns in these arrangements. Using Numicom to 10 highlights the difference between odd and even numbers and so it makes sense to introduce the vocabulary. Recognising 6 as 2, 3s and 8 as 2, 4s etc helps children to subitise larger numbers and so the vocabulary double and half is introduced here.
Week 1 S3 Ep 5 (Zero)  S3 Ep 1 (Once upon a Time)  S3 Ep 2 (Blockzilla)	Introducing 0 Comparing numbers to 5 Number bonds to 5	Consolidate recognition of 2D shapes with up to 5 sides (Circle, Semicircle, Triangle, Square, Rectangle, Pentagon) 3D shapes		<ul style="list-style-type: none"> <li>● Introducing the concept of zero</li> <li>● Zero is 1 less than 1 and an absence of something</li> <li>● A review of numbers 1 to 5 (including totaling values and coins)</li> <li>● Comparison of numbers to 5 using the language of greater than and less than</li> </ul>
